## **NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT:**

*(Expressed in Hong Kong dollars)*

### **1 BASIS OF PREPARATION**

The interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), including compliance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 27 July 2020.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2019 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2020 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2019 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

The interim financial report is unaudited but has been reviewed by the Company’s Audit Committee.

The financial information relating to the financial year ended 31 December 2019 that is included in the interim financial report as being previously reported information does not constitute the Company’s statutory financial statements for the financial year but is derived from those financial statements. Further information relating to these statutory financial statements disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The company has delivered the financial statements for the year ended 31 December 2019 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Companies Ordinance. The company’s auditor has reported on those financial statements. The auditor’s report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under section 406(2), 407(2) or (3) of the Companies Ordinance.

## 2 CHANGES IN ACCOUNTING POLICIES

The HKICPA has issued a number of amendments of HKFRSs that are first effective for the current accounting period of the Group. Of these, the following developments are relevant to the Group's financial statements:

- Amendments to HKFRS 3, *Definition of a Business*
- Amendments to HKFRS 16, *COVID-19 Related Rent Concessions*

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

### **Amendments to HKFRS 3, *Definition of a Business***

The amendments clarify the definition of a business and provide further guidance on how to determine whether a transaction represents a business combination. In addition, the amendments introduce an optional "concentration test" that permits a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

### **Amendments to HKFRS 16, *COVID-19 Related Rent Concessions***

The amendment provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic ("COVID-19-related rent concessions") are lease modifications and, instead, account for those rent concessions as if they were not lease modifications.

## 3 REVENUE AND SEGMENT REPORTING

### **(a) Revenue**

The principal activities of the Group are the manufacture and distribution of bottled, canned and draught beers.

As the Group's revenue is entirely attributable to these activities, no analysis by activity is provided.

Revenue represents the invoiced value of products sold, net of discounts, returns, value added tax and consumption tax.

No provision for Hong Kong Profits Tax for the six months ended 30 June 2020 is made for the Company and other Hong Kong subsidiaries either because the accumulated tax losses brought forward exceed the estimated assessable profits for the period or the entities sustained losses for taxation purposes.

The statutory tax rate applicable to the subsidiaries established in the People's Republic of China ("PRC") was 25% (2019: 25%). No provision for current taxation has been made for the subsidiaries established in the PRC because the entities sustained losses for taxation purposes.

## 6 DIVIDENDS

The Board resolved that no dividends will be declared for the six months ended 30 June 2020 (2019: Nil).

## 7 EARNINGS/(LOSS) PER SHARE

### (a) Basic earnings/(loss) per share

The calculation of basic earnings/(loss) per share is based on the profit attributable to equity shareholders of the Company for the six months ended 30 June 2020 of \$2,785,000 (30 June 2019: loss of \$6,579,000) and on 373,570,560 ordinary shares (at 30 June 2019: 373,570,560 ordinary shares), being the number of ordinary shares in issue throughout the period.

### (b) Diluted earnings/(loss) per share

The diluted loss per share is not presented as the Company does not have dilutive potential ordinary share for both periods presented.

## 8 TRADE AND OTHER RECEIVABLES

The ageing of trade receivables (net of loss allowance) as at the end of the reporting period is as follows:

	<b>At 30 June</b>	At 31 December
	<b>2020</b>	2019
	<b>\$'000</b>	\$'000
Current	<b>25,112</b>	29,709

	<hr/>	<hr/>
	<b>35,135</b>	39,371
	<hr/> <hr/>	<hr/> <hr/>

The general credit period is payment by the end of the month following the month in which sales took place. Therefore, all the current balances above are within two months from the invoice date.

Management has a credit policy in place and the exposure to this credit risk is monitored on an ongoing basis.

The credit terms given to the customers vary and are generally based on the financial strength of the individual customer. In order to effectively manage the credit risks associated with trade debtors, credit evaluations of customers are performed periodically.

## 9 TRADE AND OTHER PAYABLES

The ageing of trade payables as at the end of the reporting period is as follows:

	<b>At 30 June</b>	At 31 December
	<b>2020</b>	2019

More than 6 months past due	—	135
	<hr/>	<hr/>
	<b>24,941</b>	44,245
	<hr/> <hr/>	<hr/> <hr/>

The Group's general payment terms are one to two months from the invoice date. Therefore, the current and less than 1 month past due balances above are mostly within two to three months from the invoice date.

## **BUSINESS REVIEW**

### **Hong Kong Operations**

The economic recession worsened in Hong Kong in the first half of 2020, as disruptions caused by the COVID-19 pandemic continued. In response to this, the Hong Kong SAR Government launched the "Employment Support Scheme" (ESS), providing financial support to employers so they can retain employees. The Company has availed of this program. Our Hong Kong operations posted strong profit recovery in the first half of 2020, primarily driven by the improvement in operations, and was further supported by the ESS of the government.

While the total Hong Kong beer industry contracted by 7% compared to the same period in 2019, our Hong Kong operations managed to achieve roughly the same level of local sales volume in the first half of the year, resulting in improved market share. Combined with export volumes, the Company achieved an 8% gain in total sales volume in the first six months.

As local demand weakened and uncertainty surrounding the pandemic lingered, the Company responded quickly to address the shifting market dynamics, which led to improvements in market share and profitability. With the decline in tourism and the restrictions in place on restaurants and bars, beer consumption shifted to homes. Off-premise consumption accounted for up to 80% of the total market in the first half of 2020. A significant portion of the advertising and promotion resources was invested to ensure that the Company's brands remained top-of-mind of consumers whether they were buying our products on-site or online.

While the mainstream segment suffered the most from the market contraction, San Miguel brands performed better than the industry. San Miguel Pale Pilsen, San Mig Light and San Miguel Cerveza Negra implemented a co-branded retail chain-wide promotion, 大放送, which ran from May to June. Supported by tactical advertising on the internet, the promotion was successful in generating consumption and goodwill from both consumers and trade. A series of premium redemption promotions in convenience stores and provision stores were also put in place throughout the first half of the year.

Only the premium segment experienced some growth throughout this period, and the Company's premium brands benefited from it. Red Horse Beer, in particular, performed better compared to the same period last year.

In the lower-priced segment, which accounts for 30% of the industry volume, Blue Ice Beer performed favorably with a single-digit growth in sales volume. The brand benefited from consistent brand building through advertising and promotion. An effective retail chain-wide promotion, 極爽大抽獎, was launched in May.

The Company also saw double-digit growth in sales and revenue in Macau, as well as in other export markets.

### **South China Operations**

While China was able to bounce-back after a steep 6.8% drop in GDP in the first quarter of 2020 and avoided going into a technical recession, the overwhelming negative impact of COVID-19 was felt around the country, including South China. Our brewery in Foshan City was closed for the entire February, in response to the pandemic and to ensure the safety of our people. Our consolidated South China operations registered a decline in both sales volume and revenue, resulting in a negative profit performance.

Guangzhou San Miguel Brewery Company Limited (“GSMB”) registered lower volumes for almost all brands in its portfolio, as a result of the national lockdown and limited commercial activities even after the lockdown. GSMB, however, was able to decisively and quickly adjust its business operations by employing cost management measures. Nonetheless, with the volume recovery in the 2nd quarter of the year, GSMB was able to improve its operating loss in the first half of 2020 compared to the previous year.

Meanwhile, San Miguel (Guangdong) Brewery Company Limited (“SMGB”), which serves as a production source of San Miguel Brewing International’s export business, was affected by the temporary closure of its brewery and of shipping ports in February. This resulted in a double-digit decline in export volume in the first six months of 2020, with profit also lower by double-digit versus 2019.

Despite the challenges brought about by COVID-19, two of the brands of our South China operations, Dragon Qingchun and Red Horse Beer (produced at our brewery in Foshan City), garnered gold and silver medals respectively, at the Monde Selection Beer Competition in Brussels.

## **OUTLOOK**

The COVID-19 pandemic’s socio-economic impact is being experienced not just in mainland China and Hong Kong, but also across the world. We are optimistic about the strategies and programs that we put in place in order to position our products and services ahead of the competition, and deliver better distribution and sales.

We thank the Hong Kong Special Administrative Region (SAR) Government for its “Employment Support Scheme”. We thank our employees for their hard work and perseverance, and the members of the Board for their guidance. Most of all, we thank all our consumers, customers, and business partners for their continued support, patronage, and trust.

## **PURCHASE, SALE OR REDEMPTION OF THE COMPANY’S LISTED SHARES**

There was no purchase, sale or redemption by the Company or any of its subsidiaries of its listed shares during the six months ended 30 June 2020.

## CORPORATE GOVERNANCE

The Company has applied the principles of the Code Provisions under the Corporate Governance Code and Corporate Governance Report (the “CG Code”) contained in Appendix 14 of the Listing Rules during the six months ended 30 June 2020, save for the deviation discussed below:

- All of the non-executive directors are not appointed for a specific term (CG Code provision A.4.1) but are subject to retirement by rotation once every three years and reelection at the annual general meeting under the Company’s Articles of Association.
- With the COVID-19 pandemic and in light of the regulations introduced by the governments of the Hong Kong SAR and the Philippines, the Chairman of the Board and the Board Committee members did not attend the Annual General Meeting of the Company held on 20 April 2020 (the “AGM”) (CG Code provision E.1.2).
